### SITE

This choice little "home vineyard" is tucked into a fog-choked valley four miles from the cold Pacific Ocean. It grows on colluvial soils of golden sand and calcareous deposits. Clonal material is Old Wente, planted in the mid-1980s at <600ft elevation. This uniquely temperate region is defined by its relationship to the sea, reliable fog, and coastal redwoods. The vineyard was recently acquired by the Novick family and is managed by local legend, Prudy Foxx.
