### SITE

A deep coastal site in the lee of a forbidden Buddhist monastery. Sits at 700-800ft between the first and second ridge, three miles from the Pacific on an active seismic fault. Soil is strewn with luminescent blue volcanic rock and sandstone. Steep and angular with multiple aspects—all of them lashed by fog and ocean-born wind. Clones 76 and 4 planted in 1999 and farmed Certified Sustainable.
